

98,291 Syrian refugees living in 10 camps have benefitted from routine access to water, sanitation and hygiene services, while **17,521 Syrian Refugee children in camp schools and CFS** have continued to benefit from access to functional latrines. **1,320 Refugees living in the community** benefited from access to water, bringing the total number of off camp refugees assisted in 2016 to a total of **31,678** people.

Anbar (Al-Obaidy):

Access remains limited. Service provision however continued, including daily provision of water from Al Qaim Water project. Water remains untreated due to restrictions on chlorine transportation and provision.

Duhok (Domiz I and II, Akre, Gawilan):

In all camps, routine operation and maintenance of WASH facilities, including water quality monitoring continued. In Domiz 1, 672 households received water through trucking. In Domiz 2, the water supply pipeline for 464 shelters is 98% completed, while installation of 552 household water tanks and two raised water tanks continues. In Domiz 1, seven holding tanks were built to separate black and grey water while in Domiz 2 extension, construction of 552 latrines and showers and 29 septic tanks is ongoing. A three day training session on school sanitation was conducted for 56 school teachers, and rehabilitation of facilities in 131 camp and host community schools is 90% complete. WASH awareness and hygiene promotion continued in all camps, including a one day cleaning campaign engaging all parties including community members. School sanitation and hygiene education for 50 schools (14 in camps, 36 in host communities) is ongoing.

Erbil (Basirma, Darashakran, Kawergosk, Qushtapa):

Routine operation and maintenance of WASH facilities, including water quality monitoring continued. Construction of new sanitation units which includes latrine and shower super structures, sewer pipelines, septic tanks and cesspools, and water supply distribution systems continues: currently 480 Units in Qushtapa, 353 Units in Kawergosk and 53 Units in Basirma are under construction. Garbage collection and desludging activities continued in all camps, along with daily maintenance and cleaning of communal and shared toilets and showers. The routine, monthly one day camp clean-up campaign was carried out in all camps.

Sulaymaniyah (Arbat):

The number of camp residents increased to 7,224 people, with regular WASH activities continuing, including an increased average of daily household level water supply. Two water testing bacteriological and chemical exercises were conducted showing good results, while a second pump was provided to DOSW as a spare. Two booster pumps are being installed by DoSW to increase water pressure for blocks A and B. Focus Group Discussions on water use, conservation and quality, use of garbage bins and cleaning of water tanks. continued. 173 garbage bins were distributed. Door to door hygiene promotion, including lice control, was undertaken for 849 families. Plans were undertaken for a Kap survey on hygiene behaviour change, to be conducted in November.

NEEDS ANALYSIS:

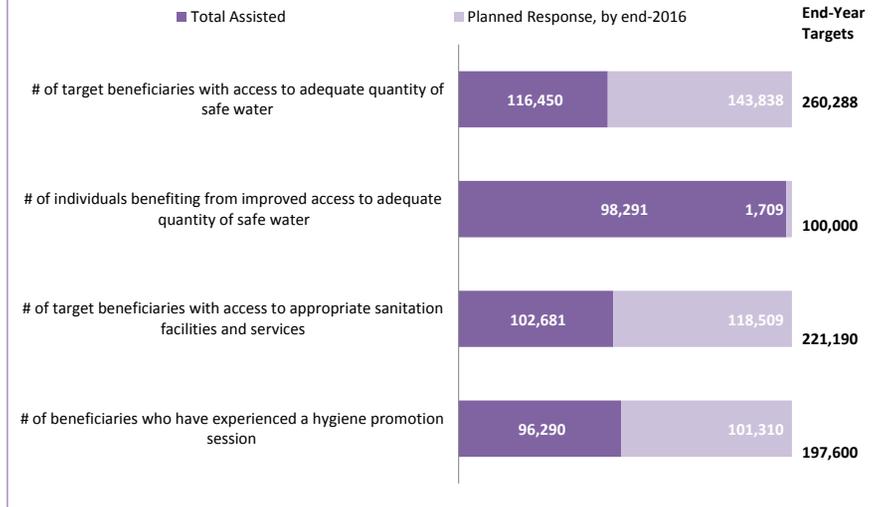

The Sector continues to lack sufficient funding to initiate WASH activities at scale for Refugees in the community. There remains need for advocacy on this issue.

Provisioning for winter is becoming increasingly important as the weather cools. Plans are being drawn up on how to address the cooler weather, with a focus on provision of hot water in certain camps. Funding for such initiatives remains limited.

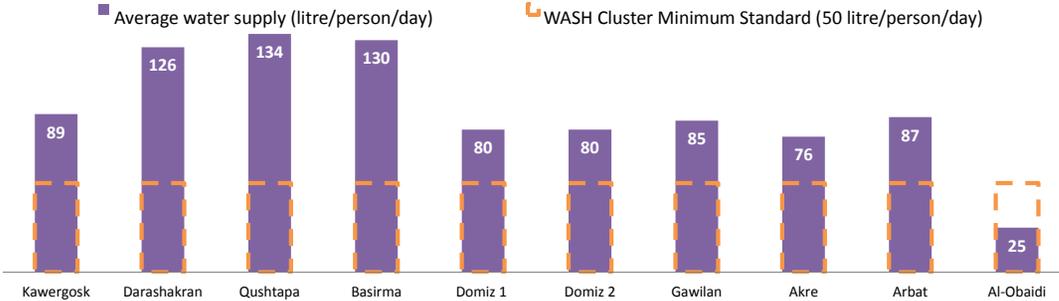

Safe final treatment of waste water remains a key need. The high cost of upgrading services and desludging due to high frequency and inefficient facilities remains prohibitive.

The WASH Sector Narrative Log frame for the 2017/2018 3RP Iraq Country Chapter were submitted.

IRAQ RESPONSE INDICATORS: OCTOBER 2016*

ACCESS TO SAFE WATER SUPPLY IN CAMPS: OCTOBER 2016

Leading Agency: UNICEF. Contact: Annmarie Swai: aswai@unicef.org

*Planned response based on full funding of 3RP for an expected direct beneficiary population of 250,000 Syrian refugees and 1.5 million members of impacted local communities by end-2016. By 31 October 2016, 227,971 Syrian refugees (88,611 households) live in Iraq. 39% = 88,611 live in 10 camps and 61% = 139,360 in non-camp/urban areas. 96% = 219,468 live in Kurdistan Region-Iraq (KR-I): in Erbil Duhok and Sulaymaniyah and 4% = 8,503 live in other locations in Iraq.
