

# Lake Chad Basin: Possible Famine, Continued Displacement

Boko Haram-related conflict has led to a severe humanitarian emergency in the Lake Chad Basin region and potential famine in inaccessible areas of northeastern Nigeria. At least **7 million** people in the region are in need of food assistance. Internally displaced persons (IDPs) and trapped populations are at greater risk due to insecurity and poor or degraded infrastructure which impede aid delivery. There are currently **2.6 million** people displaced across the region. The 2017 UN humanitarian appeal for Nigeria and regions of Niger, Cameroon, and Chad in the Lake Chad Basin is approximately **\$1.5 billion** dollars.
