

Iraq - CCCM Settlement Status Report

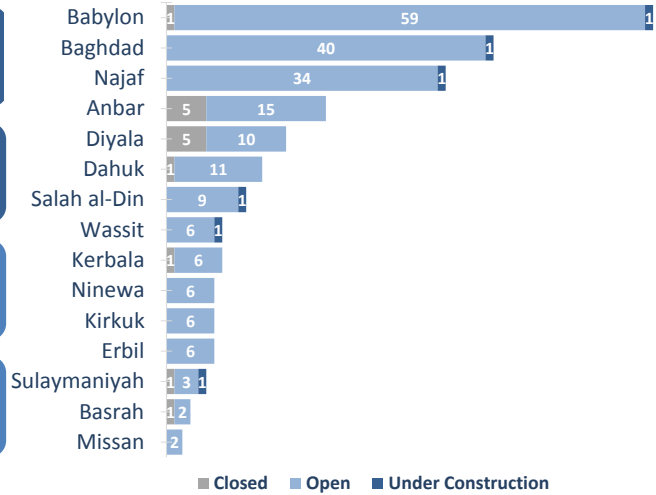

From 19 June to 11 July 2016

The CCCM Settlement Status Report captures information from some type of IDP locations under the CCCM Cluster strategy. CCCM distinguishes between two types of IDP locations, formal settlements and informal sites. A settlement is an concentrated IDP location managed by an agency or an administrative office, and recognized by local authorities. Settlement can be Camps, Collective Centers, or Transit Centers. In Iraq, the current total number of CCCM IDP locations of concern is **2130**. As of July, the number of open formal settlements is **248**. This document provides detailed information on settlements, updated monthly. CCCM is working with partners to identify all the formal collective centers. Therefore this document will change according to update. Informal sites for returnees are monitored by CCCM but are not visible from this list.
