NEEDS ANALYSIS:

Around 90 per cent of the over 4.8 million registered Syrian refugees in the five host countries - Turkey, Lebanon, Jordan, Iraq and Egypt - are living in urban, peri-urban and rural settings. This has led to a greater demand for housing affecting both host communities and refugees alike, as shelter remains one of the key pressing needs. The number of refugees living in sub-standard or overcrowded shelters and in poor neighbourhoods has increased considerably, mainly due to the increase in the number of refugees and rise in their vulnerability levels.

The priority for the Shelter Sector in 2016 remains ensuring adequate, affordable and sustainable housing options, primarily for refugees living in urban and rural areas, but also for vulnerable host community members.

Partners are working on addressing both the short- and longer-term shelter needs for the most vulnerable refugees and also those from the host communities. Studies have shown that there is a continuing increase in vulnerability which has impacted the refugees' ability to cover their shelter needs, particularly those in urban, peri-urban and rural settings.

REGIONAL RESPONSE INDICATORS: JANUARY - OCTOBER 2016 *

These dashboards reflect the achievements of the more than 200 partners, including governments, UN Agencies, and NGOs, involved in the 3RP response in Egypt, Iraq, Jordan, Lebanon and Turkey. Progress and targets may change in line with data revisions. All data on this Dashboard is current as at 31 October 2016.

* Progress data not yet received for Turkey in October 2016.
