Source of data: ActivityInfo

846 Total # of cultural mediation services provided
Source of data: ActivityInfo

568 Total # of projects benefiting local&displaced communities implemented
Source of data: ActivityInfo

SECTOR HIGHLIGHTS

Asylum procedures: The PWG undertook an analyses regarding the recommendations of the Joint action Plan to implement the EU-Turkey Statement and its eventual impact on the asylum procedure. The Director of the Asylum Office was invited in the PWG and brief partners on the current asylum procedures, and the challenges.

Cash assistance and protection: The PWG prepared SOPs on protection and cash, to ensure protection actors monitor and support the implementation of cash assistance and discontinuation of catering. There are concerns on data privacy currently being discussed with agencies providing cash. In addition, there are challenges for specific groups as UAC that are not eligible for cash, this decision may increase their vulnerability. The SOPs also provide guidance for PwSN that require support to access to cash.

Legal Aid Taskforce: was established by the PWG, with the participation of Greek, international non-governmental organisations and UN actors that offer legal assistance pertaining to asylum law and other relevant legal concerns faced by asylum seekers, refugees and migrants in Greece. The Taskforce has undertaken a mapping of ongoing legal services across Greece, including both the Aegean islands and the urban context. A briefing paper on systemic legal challenges in the Greek refugee response is currently under draft for advocacy purposes.

Participatory Assessments: UNHCR and 35 partners conducted participatory assessments across Greece, consulting 1,921 persons of concern, including asylum seekers, refugees and also host community, in 241 focus group discussions across 40 sites/RIC and in urban accommodation. There are 10 regional reports and a national summary of the participatory assessment, with a series of recommendations that will be followed up in local action plans.

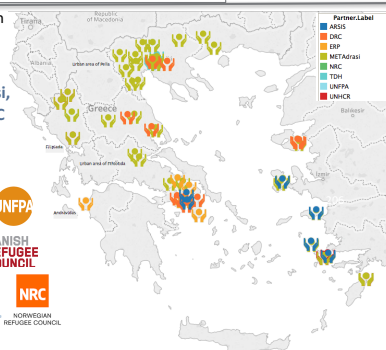

Referral pathways and case management: Regional PWG completed referral pathways for Child Protection, SGBV and PwSN for all the sites in the Greece operation. The PWG established a taskforce that has finalised SOPs for safe identification and referral of PwSN.

3W-PROTECTION

The achievements described in this dashboard is a collective work of **8** organizations:

UNHCR, UNFPA, METAdrasi, ARSIS, TDH, DRC, ERP & NRC
Donor: Swiss Solidarity, UNHCR & ECHO

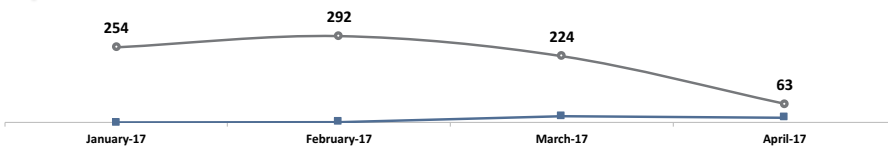

SECTOR PROGRESS PER TOP FOUR INDICATORS

Objective 1 : PoCs in Greece have access to registration and effective international protection

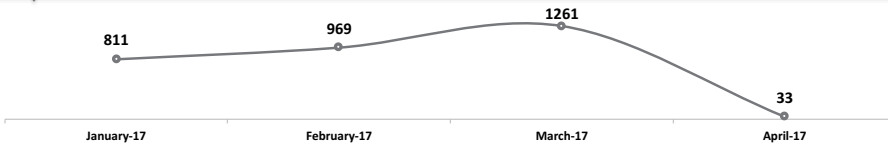

Indicator 2 [PWSN in sites and urban] Total # PWSN identified to specialized services in sites and urban

PWSN identified to specialized services in sites
PWSN identified and referred to specialized services in urban areas

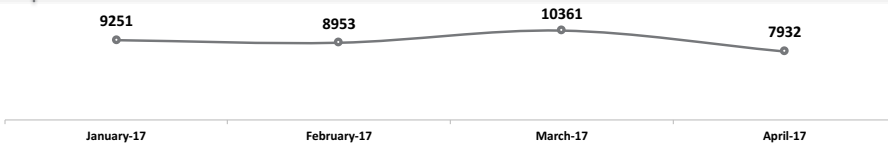

Objective 1 : PoC in Greece have access to registration and effective international protection

Indicator 2 [INDIVIDUALIZED LEGAL COUNSELLING] Total # of POC receiving legal information on processes/rights/obligations

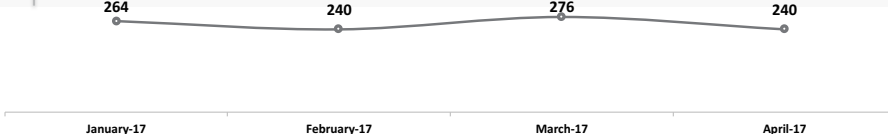

Objective 2 : Protection-centred assistance is provided, in particular for Persons with Specific Needs (PwSN)

Indicator 3 [INTERPRETATION] # interpretation sessions provided
