Note: During the period 01.01.2017–31.07.2017 UNHCR supported 704 places for UASC and assisted 1,066 children in total.

¹UNHCR and Operational Partners.

²Actual capacity is calculated as the subtraction of current places minus 17% which is this week's estimated average natural loss for mainland and 3% for islands. Natural loss is the number of places that cannot currently be used because of damages/repairs, protection issues, family size, etc. The formula applies to all type of accommodation.

Actual capacity is a close estimate of available places to be used as reference.

³Occupancy rate is calculated as the percentage of current population over actual capacity.

*The actual available capacity is estimated to be at 814. This derives from 211 places on islands and 603 places on mainland. It can be used for immediate planning.
