

## Overview

The Proof of Registration (PoR) card is an important protection tool that is issued by Government of Pakistan and provides temporary legal stay and freedom of movement for the 1.4 million registered Afghan refugees in Pakistan. The PoR cards expired at the end of 2015 have been extended through official notification until 30 June 2019\*.

The four PoR Card Modification centres (PCM) are located in Peshawar, Quetta, Karachi and Rawalpindi. These centres are used for the modification and replacement of existing cards; the registration of infants and children up to the age of five years; the issuance of new cards for eligible children who are five years and older; and the issuance of birth certificates to children under the age of 18.

In 2019, UNHCR prioritised funds for birth registration and the issuance of birth certificates to 70,000 children. The target for the issuance of individual PoR cards is 170,000 children who have reached five years of age and are eligible to receive their individual cards from the PCM centres.

The registration activities remained slow in January 2019. In January, a slight decrease of applicants for PCM centre services was observed. During the reporting month some 2,554 applicants availed registration services (21 % decrease compared to December 2018). This is attributed to seasonal weather conditions as the majority of individuals are reluctant to travel to process their card for modification during the winter season.

\*PoR cards have been extended until the end of June 2019 by the Federal Cabinet in its meeting of 2 October 2018.

## Registration activities per week

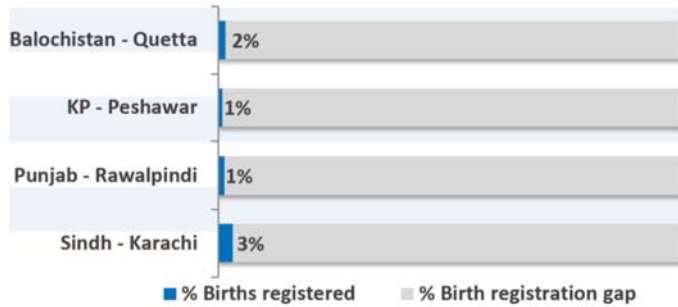

## Registration activities summary by location - January, 2019

Total registered refugees in Pakistan as of 31 January 2019

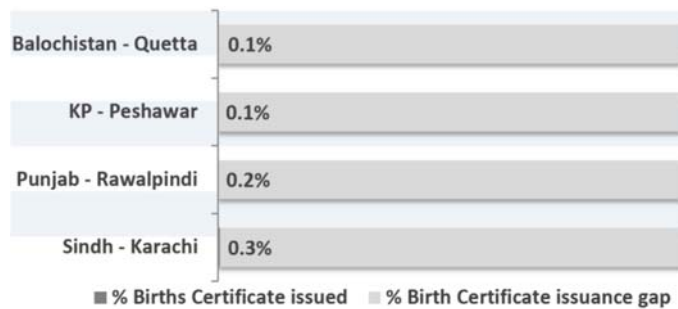

**1,401,060**

## Birth registrations

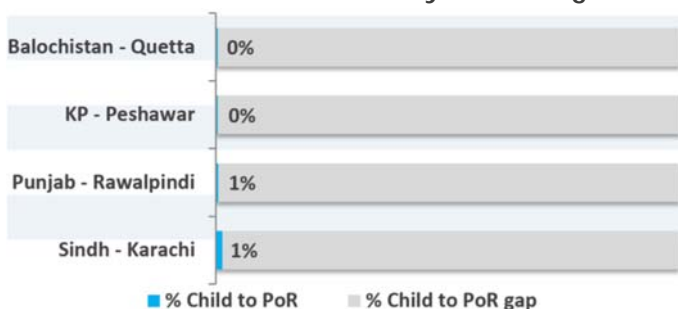

Above percentage presented against the target of 70,000 new births during 2019

## Birth certificates

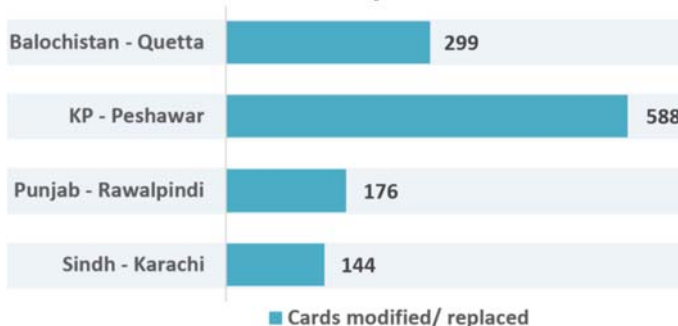

Above percentage presented against the target of 70,000 birth certificates

## Provision of PoR cards to registered children that have reached above 5 years of age

Above percentage presented against the target of 170,000 children who have reached five years

## Card modification / replacement

Cards modification includes changes to Name, Father Name, Gender and Marital status and it does not entail an annual target.

The following charts summarise the progress towards these targets and the remaining gaps.

The percentages for birth registrations, birth certificate issuance and provision of PoR cards to registered children that have reached five years of age are based on the estimates noted on page 1. These overall targets have been apportioned to each centre based on the size of the Afghan refugee population for which the centre provides services.

During January, the trend in child registration activities decreased slightly compared to those in December 2018 at all PCM centres countrywide (a total of 829 children were registered in January 2019 at all the PCM centres countrywide compared to 1,225 in the month of December 2017).

In 2019, based on cost-benefit analysis with PCM centres and discussions on the best interests for persons of concern, UNHCR will continue to deploy 3 Mobile Registration Vans (MRVs) in KP, Balochistan and in Punjab (for a period of four months each). The deployment of MRVs was very successful in 2018. Mobile Registration Van provides services for applicants living in remote areas of KP, Punjab and Balochistan, facilitating those who can't afford to travel to PCM centres.

During January, only 66 birth certificates were issued. The issuance of birth certificates is temporarily suspended by NADRA HQ. The reason of the suspension is that NADRA HQ has made changes in the template and they are seeking formal endorsement from the Ministry of Interior/CCAR. UNHCR is following-up with NADRA HQ to resolve the issue on a priority basis.

It should be noted that the trend for PoR card modifications will naturally follow that of birth registrations and the provision of PoR cards to children over five. This is because children are added or removed from their parents' cards, and their parents' cards will need to be modified.

In January 2019, only 501 lost or stolen cards were replaced. Deaths of refugees continue to be significantly underreported. Only 4 deaths were registered/ reported in January 2019.
