### FUNDING

**105.4M**  
Funding Required

Although the financial tracking system (FTS) denotes that the Sector has been provided with 0% of funding towards its target of 105.4 million, this does not reflect the full funding picture for Protection operations in 2018. Many Protection interventions have been funded thus far through internal agency sources, including unearmarked contributions, that are not included in the tracking system. Any such sources of funding will be reflected at years end within the financial tracking system.

## Protection

**Achievements:** In January, the Protection sector **carried out campaigns to raise awareness on human rights and accountability & feedback mechanisms for 23,650 individuals**. Partners also profiled 4,724 individuals for protection risks, provided livelihood support to 1,194 individuals and held capacity building trainings for 549 individuals. 180 individuals received protection-based material assistance, while 180 were referred to other sectors.

The security situation in Borno, Adamawa and Yobe states remained fluid leading to mass displacement of local communities largely fleeing from violence in Kukawa, Monguno, and Kala/Balge LGAs in Borno State. **Over 35,000 Nigerians are reported to have sought refuge in Cameroon**, while another 30,000 civilians fled to Maiduguri and are now internally displaced in MMC, Jere, and Konduga LGAs in Borno State.

The Sector provided input to the 90-Day Emergency Response Plan to address the protection needs of the new arrivals, including vulnerability screening, protection monitoring and provision of protection-based material assistance, and is working to maintain an up-to-date protection referral directory to ensure efficient protection delivery in line with humanitarian principles.

In Adamawa and Yobe states, **partners distributed material protection assistance kits to vulnerable new arrivals**, the majority to child and elderly-headed households, and 488 individuals in Yobe State were sensitized on Accountability & Feedback Mechanisms (AFM). 58 Borno State Government officials were also trained on human rights in January.

The Nigerian Bar Association (NBA) supported households who had been disinherited by obtaining letters of administration for 55 persons of concern from the Borno State High Court of Justice Probate Registry. The NBA also provided legal representation in court for 11 civil cases (including domestic violence) and 9 criminal cases (including rape) in the month of January.

**The Housing, Land and Property (HLP) sub-sector** developed the "Due Diligence Guidelines for Humanitarian Actors in the North-East", as well as a "Tenancy Obligations and Guide for IDPs" to limit the risk of IDPs being forcefully evicted. The sub-sector also sensitized 30 women from IDP camps and host communities on their housing and property rights, and held an interactive session for 27 HLP stakeholders to improve the identification and reporting of HLP issues.

**The Mine Action sub-sector** conducted risk education for 20,000 beneficiaries (5,574 girls and 5,713 boys; 3,509 women and 5,204 men), with 75 per cent of the beneficiaries targeted in Bama, Jere, Kaga, Konduga, Mafa, MMC, Monguno and Ngala LGAs of Borno State, 15 per cent in Adamawa State and 10 per cent in Yobe State.

**Way forward:** The Protection sector **will monitor election-related activities** in the coming month to ensure that IDPs are not disenfranchised or exploited due to their vulnerability.

**Partners will continue to provide protection assistance to new arrivals in Maiduguri and Monguno**, while working closely with other sectors to address and mitigate protection-related concerns in the establishment of the new site and relocation of IDPs to Mohammed Goni International Stadium Camp in Maiduguri.

The sector will further engage with the Government to develop principled approaches to resolving HLP issues, work to enhance women's HLP rights and plans to expand replacement of title documentation to Monguno, Konduga, Dikwa and Gwoza LGAs in Borno State.

Mine Action activities will be reduced as a result of the upcoming elections, yet some activities will occur in and around MMC LGA in Borno State.

## Child Protection

**Achievements:** In January, **child protection partners reached 113,762 children (56,770 girls and 56,992 boys) and 19,527 caregivers (9,281 women and 10,246 men) with child protection interventions**; this represents 13 per cent of the target for 2019 under the multi-year Humanitarian Response Strategy. A total of 87,416 children and caregivers (43,609 women and 43,807 men) benefited from the provision of **psychosocial support, life skills and livelihood support**.

A total of 1,447 unaccompanied and separated children and children with other protection risks (770 girls and 677 boys) received **integrated case management services**; of these, 12 children (6 girls and 6 boys) were reunified with their caregivers and 327 children (196 girls and 131 boys) were placed in alternative care and received follow-up visits. **539 children (135 girls and 404 boys) associated with armed groups benefitted from reintegration services**.

A total of 18,603 children and caregivers (8,030 women and 10,573 men) were educated on mine risks.

Child protection partners are providing case management and psychosocial support services for new arrivals in Jere, Konduga, MMC and Monguno LGAs of Borno State. However, there are significant gaps in case management services in Monguno LGA and the sub-sector has been advocating for funding to scale up activities.

**Way forward:** The Child Protection sub-sector will carry out a survey to assess the technical and operational capacity needs and gaps for child protection actors in Borno, Adamawa and Yobe states. To improve the quality of information collected on child protection needs through the Displacement Tracking Matrix (DTM), the sub-sector will train DTM enumerators on basic child protection concepts and terminology. Additionally, child protection and GBV partners will receive training on caring for child survivors of GBV organized by the GBV and CP sub-sectors.

## Gender-based Violence

**Achievements:** In January, the Humanitarian County Team (HCT) made firm commitments to address critical needs for **women and girl's dignity and menstrual hygiene in the humanitarian response** across the BAY states. Women and children constitute 87 per cent of the new displacements in Borno State. Critical needs for dignity, including in menstrual hygiene management, remain largely unmet for women and girls of reproductive age.

The **provision of dignity and menstrual hygiene kits and services is crucial** to addressing other protection concerns. The HCT agreed on minimum actions to allow displaced women to maintain dignity and respect in spite of displacement. Most notably, \$1 million funding was earmarked from the Nigeria Humanitarian Fund to mobilize immediate, life-saving assistance, in terms of **meeting critical dignity needs of an estimated 325,000 women and girls** of reproductive age in 2019.

GBV Case Management Training from 22 to 26 January 2019 targeted 19 frontline staff from two organizations. This training is part of the rollout plan for the GBV sub-sector to enhance the capacity of partners on GBV case management programming.

**Way forward:** The sub-sector will continue to advocate for additional \$9.5 million USD in funding to support newly displaced women and girls in areas most affected by the crisis across the BAY states. Partners will conduct a community assessment on dignity needs for women and reproductive health.

The sub-sector also aims to develop a **Dignity Kit Guidance Note and Standardized Kit in the coming month**. Lastly, GBV partners will support the response for new arrivals in MMC and Jere LGAs, particularly Teachers Village IDP Camp, as well as relocation plans to the new Mohammed Goni International Stadium Camp to ensure the protection concerns of women and girls are taken into account.

#### MONTHLY TRENDS (Individuals reached)

#### OVERVIEW BY SECTOR, OBJECTIVES AND INDICATORS

1. Enhance civilians' protection from harm and respond to specific needs and risks with timely and comprehensive protection services.

| Indicator   | Actual | Target             |
|---|--------|--------------------|
| Number of vulnerable individuals referred for specialised services  | 4,724  | 1,100,000   Target |
| Number of vulnerable persons provided with protection-based material assistance (solar lanterns, hygiene kits...) | 180    | 200,000   Target   |
| Number of persons referred with follow-up on service provision conducted  | 180    | 50,000   Target    |
| Number of persons attending mine risk education   | 20,000 | 475,000   Target   |

2. Improve affected persons' access to their rights and strengthen the overall protection environment.

| Indicator  | Actual | Target           |
|--|--------|------------------|
| Number of persons provided with legal aid and services (including access to justice and housing, land and property assistance) | 75     | 50,000   Target  |
| Number of persons provided with access to legal documentation  | 2,633  | 500,000   Target |
| Number of persons receiving legal advice on housing, land and property rights  | 106    | 50,000   Target  |
| Number of persons provided with training on protection principles  | 589    | 30,000   Target  |
| Number of persons reached with protection messaging through sensitizations and community-based initiatives                     | 3,848  | N/A   Target     |

3. Promote the creation of conditions for safe, voluntary and durable solutions and enhance freedom of movement

| Indicator  | Actual | Target           |
|--|--------|------------------|
| Number of hazardous areas identified with level of contamination, type and location                      | -      | N/A   Target     |
| Number of identified hazardous areas cleared from the presence of explosive hazards                      | -      | N/A   Target     |
| Number of housing, land and property disputes resolved (including eviction and security of tenure cases) | 70     | 50,000   Target  |
| Number of persons with identified protection needs benefitting from specialized self-reliance activities | 1,194  | 150,000   Target |
| Number of ERW/IED incidents reported   | -      | N/A   Target     |
