

Response to Q1 feedback - 2019-2020 RRP Performance Tracking (July 2019)

The following changes have been made to the ActivityInfo platform based on feedback received after the Q1 2019 reporting cycle.

General changes / clarifications

- **Funding source:** option to select “Funds from multiple donors” and specify donors in text field.
- **Import:** partners that want to utilise import templates can reach out to the relevant IM focal point for support.
- **Locations:**
 - Partners should only submit one location per form, additional breakdown in terms of reporting period, implementation type or refugee country of origin can be provided by adding additional sub-form records against the same location.
 - Missing locations can be added by navigating to the “Locations” folder and submitting a new record under the relevant location type.
 - As of 1 July 2019 Palorinya settlement and reception centre fall under Obongi district.

Sector specific changes / clarifications

- **Livelihoods & Resilience:**
 - A total column has been added wherever a disaggregation is asked, this will allow partners that do not have the requested breakdown to still submit their reports.
 - Option to select “Other” under Modality and specify the modality in text field.
 - A form called “SET – QUA - Nothing to report (NTR)” has been added to allow partners to indicate that they have nothing to report for a given quarter, this can be indicated per location.
- **Environment & Energy:**
 - A total column has been added wherever a disaggregation is asked, this will allow partners that do not have the requested breakdown to still submit their reports.
 - A record change/comment log has been added.
 - A new indicator “Extensions workers, partner staff, and government officials receiving environmental orientation across all sectors” has been added, it can be found under the form “SET - MON - Energy, environment and climate action programming”.
 - Additional information on for instance the manufacturer or model of stoves distributed can be provided in the comments.
- **Education**
 - Additional information on for instance the type of sports equipment distributed or the breakdown between AEP, vocational and primary education for sensitisation sessions can be provided in the comments.
- **Shelter, Settlement & NFI**
 - When reporting on NFIs for new arrivals, only reception centres should be used as the reporting location.
 - A new indicator on the “Repair/expansion and construction of communal service sites” has been added, it can be found under the form “SET - QUA - Communal service sites”.
 - New arrivals receiving NFIs can now be reported in individuals as well.
