

# CCCM Cluster Somalia Dashboard

as of August 2019

## General update

CCCM partners conducted a safety audit in 2 sites of Dollow. The aim of audit is to observe, understand and evaluate site level GBV risks associated to the camp layout, camp infrastructures and services such WASH, shelter, health, nutrition, education as well as safety, security and other services.

CCCM activities have started in Belet Xawo. The activities include site monitoring and site improvement through cash for work and installation of solar lights.

The CCCM Cluster conducted a Cluster Coordination Performance Monitoring Survey. The aim of the survey was to enable Cluster partners to assess the degree to which their Cluster has achieved its core functions (as determined by the IASC). The findings will be discussed with participants at the cluster meeting where actions suggested for performance improvements will be planned accordingly.

The CCCM partner in Bossaso trained all Camp Management Committee members in PSEA and MHPSS to ensure that cases are properly identified and referred.

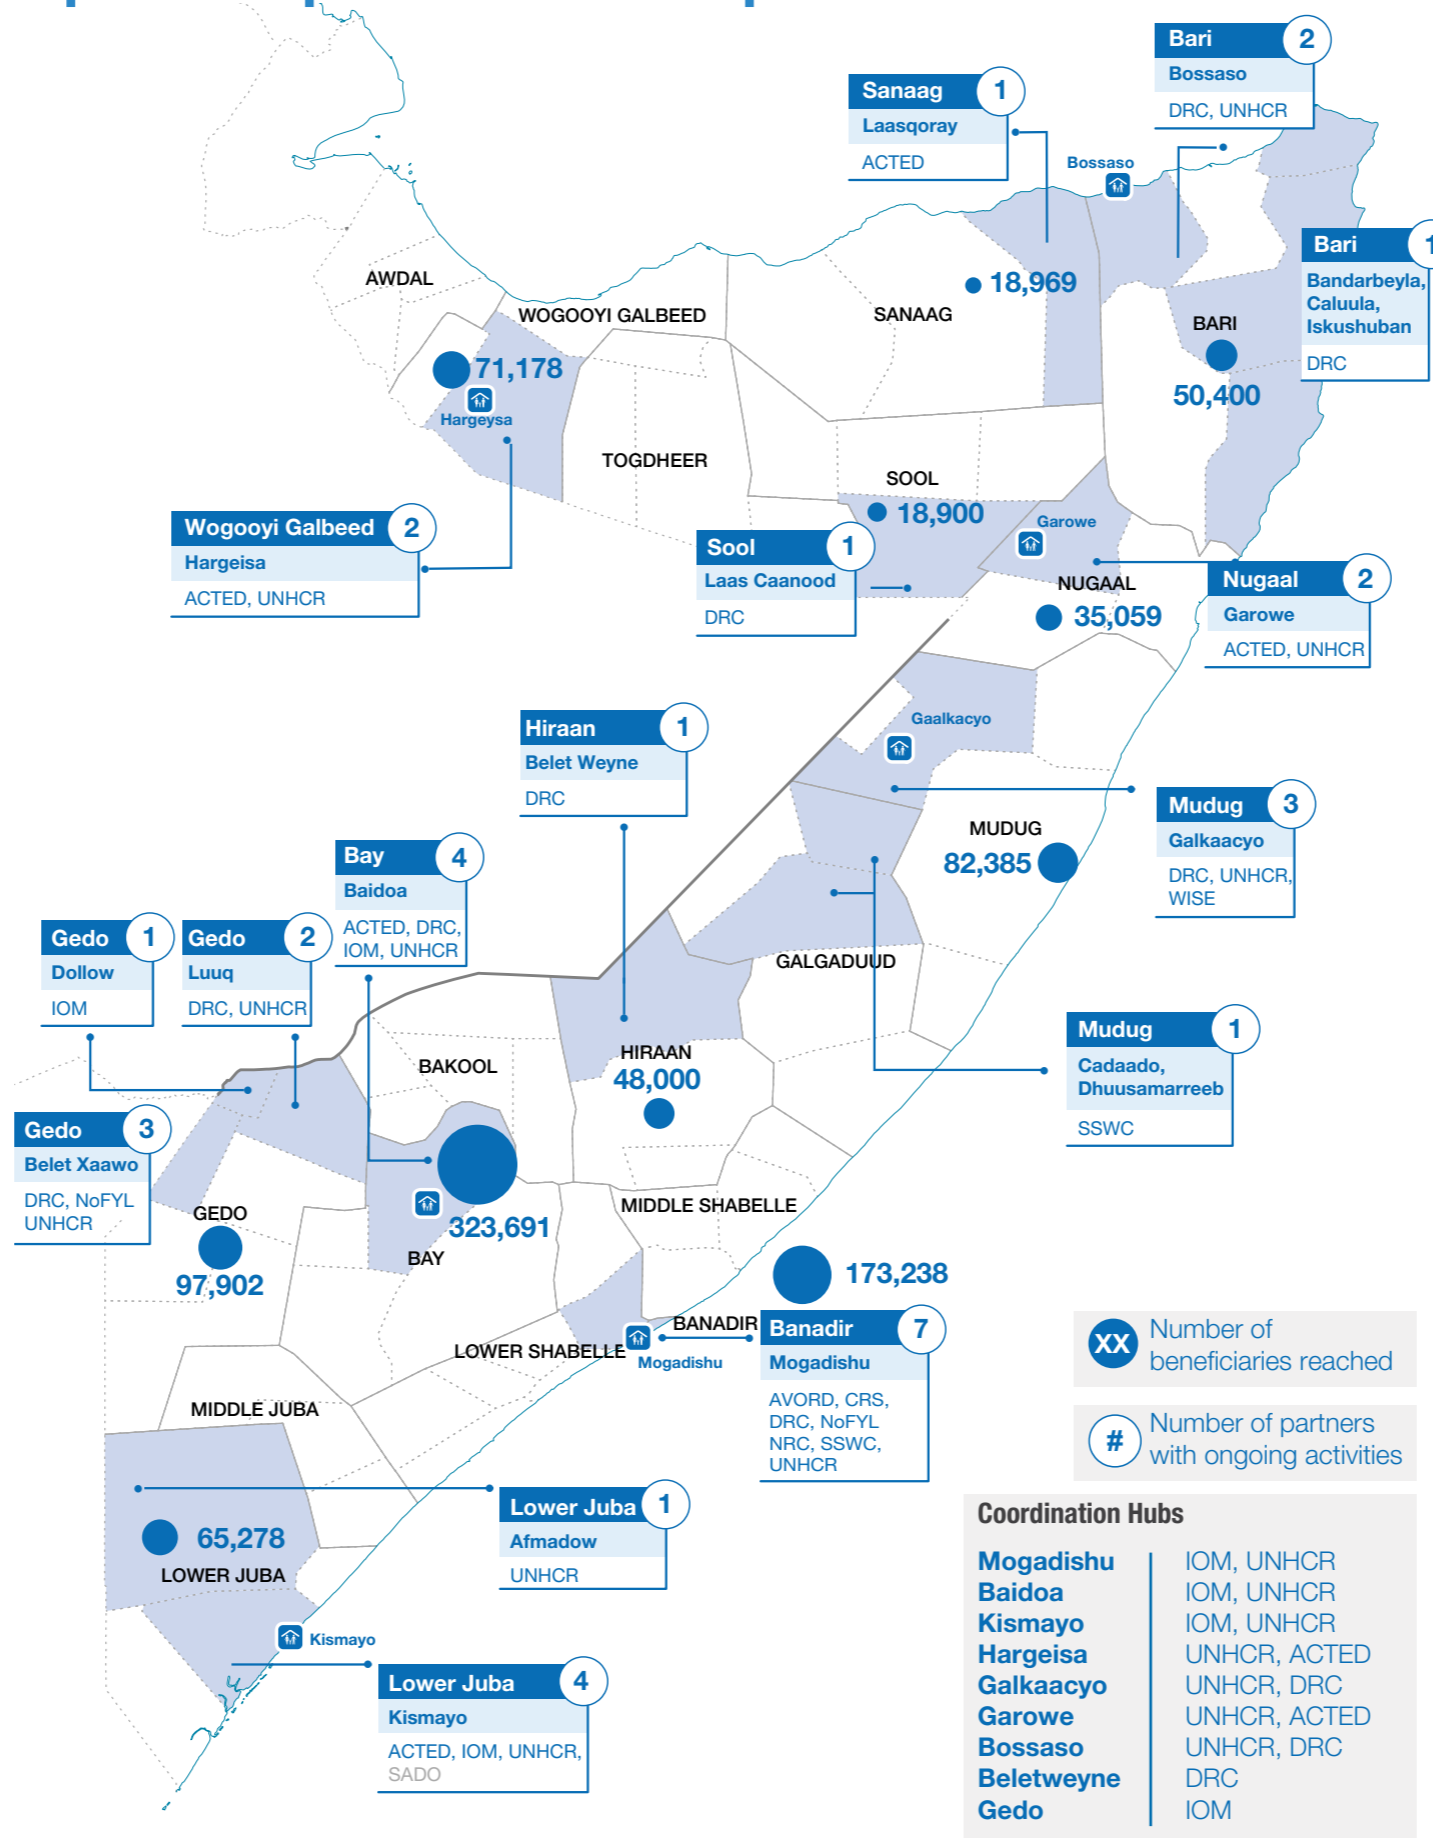

The CCCM partner in Banadir started site improvement project in 7 sites of Deynille and Kaxda. 200 displaced people will benefit from the cash for work scheme.

102 vulnerable households at risk of eviction have been relocated by CCCM partners to Wadajir settlement in Galkayo. All families have received permanent shelters and land titles from the authorities. A total of 1,152 households are targeted for relocation and to benefit from permanent shelters and land titles in Wadajir.

Site maintenance tool distribution to IDP site maintenance committees in Mogadishu Daynille and Kaxda, NoFYL/August 2019

## Operational presence of cluster partners

## Overall Objective

To improve the living conditions and protection of IDPs in sites and settlements and ensure equitable access to services and assistance of all persons in need, with a clear focus on moving toward attaining durable solutions with full participation of the displaced and host communities.

### Strategic indicators

| Strategic indicators  | Target         | Achieved       |
|---|----------------|----------------|
| # of IDP reached by CCCM partners   | 1.8 million    | 1,056,592      |
| # of sites with established CCCM mechanisms   | 1,926 sites    | 826 sites      |
| # of displaced people relocated to safe locations and supported with secure land tenure | 2,000 families | 1,102 families |

## Baseline data

2.6 million IDPs in Somalia  
2,000+ IDP sites in Somalia

## Gaps

- Restricted humanitarian access in some parts of south and central Somalia
- Lack of information on service provision at site level
- Lack of land tenure and forced evictions inhibit the ability of partners to improve living conditions in sites
- Low levels of community participation and AAP inhibit ability to improve beneficiary targeting to include marginalized populations
