Inclusion

Our Programs

Microfinance:

- We provide loans with a combination of additional services such as livelihood and financial literacy training.
- Reach: 230,000 clients

ELA:

- Our model combines safe-spaces with innovative livelihood and skills training for adolescent girls.
- Reach: Operating 1,331 clubs with 55,127 members

Agriculture:

- Training on good agronomic practices through our community promoters, and provide access to information
- Reach: 45,000 farmers in host and refugee communities

Our Programs

- **Education:** We give opportunities to 5500 academically talented but economically marginalized youths through facilitating their access to quality secondary education.
- **Emergency Response:** We currently pilot a model for developing local emergency preparedness and response capacities.
- **UPG:** We use an integrated approach consisting of asset transfers, technical skills training & personalized health care support to reach the ultra poor.
- **Reach:** 1650 youths.

Responsible Inclusive Finance for Refugees and Hosts

Our aim is...

‘to increase economic self-reliance and financial resilience of vulnerable youth and women in refugee settlements and host communities in Kiryandongo and West Nile’

Social Objective: To create self-employment opportunities and harness the entrepreneurial spirit of vulnerable youth and women in refugee settlement and host communities in Kiryandongo and West Nile region.

Activity 1: Health education through the community health promoters. (You can only achieve financial inclusion with healthy people. Our community health promoters are attached to ELA groups and women groups and Ultra Poor program groups)

Activity 2: Financial and digital finance literacy delivered to our existing and potential customers through their groups or on individual basis. Target recipients include; Women groups, ELA youth, individuals in the Small Enterprise Program and VSLA members (UPG graduates)

Activity 3: Access to responsible inclusive and convenient finance i.e. affordable money transfers, savings and credit products customized to our price sensitive BOP customers i.e. (Refugees). Digital Finance work streams in progress include; Mobile banking and the Digital Field Application in 2020, Agency banking in 2021.
