CORONAVIRUS
(Covid-19 Disease)
How is it spread?

- You can get infected with Coronavirus if you get in contact with an infected person's sneeze or cough droplets.

- Coronavirus is dangerous, spreads fast and can lead to death.

Signs and symptoms:

- Fever
- Cough
- Sore throat
- Shortness of breath

You can prevent getting infected by:

- Regularly washing your hands with water and soap

- Avoiding contact with anyone with a cold or flu-like symptoms

- Covering the nose and mouth when sneezing and coughing with a tissue or flexed elbow

- Thoroughly cooking meat and eggs

- Avoiding unprotected contact with live wild or farm animals
