

أَتَعَلَّمُ مِنَ الْبَيْتِ | I Learn From Home

I Learn From Home allows caregivers of **3 - 6 year olds** to implement play-based learning at home. Seenaryo has adapted games, songs and stories from the **Seenaryo Playkit**, with all lessons linked to ECE curricula.

How does it work?

1. Every week, we WhatsApp the materials to a coordinator at your organisation
2. The coordinator forwards the material to caregivers
3. Caregivers lead the lesson and send you photos/videos/feedback

< Click to play!

Before reading further: watch our introduction video

What are the materials?

Every week you will receive:

- **2x lesson plans:** simple bullet point instructions (for the caregiver)
- **2x lesson videos:** short videos showing how the lesson works (for the caregiver)
- **Music tracks:** many lessons include songs for caregivers to play from their phone
- **1x story video:** videos that children & caregivers watch and join in with, by acting with the storyteller

Each week there are two topics (e.g. Week 1: Hygiene & Food) with literacy & numeracy as cross-cutting subjects. Everything is in Arabic, including the literacy content.

Don't worry! All files are compressed (maximum 15MB) so they are easy to WhatsApp, with minimal data usage.

Can I see some examples?
