

### SITUATION OVERVIEW

More than 860,000 Rohingya refugee women, men, girls and boys are hosted in Cox's Bazar District, including 35,060 registered refugees who arrived in the 1990s (4%), and other unregistered Rohingya refugees who had settled in host communities prior to August 2017. Children make up 52% of the total refugee population and women and girls make up 51%.

The humanitarian crisis of Rohingya refugees has intensified by the spread of the COVID19 in the country and the world. UNHCR continues preparedness and response efforts focusing on Health, WASH and risk communication and community engagement despite the lock-down and reducing footprint in the camps since end of March consistent with the Government's public health policies.

This dashboard monitors the monthly achievements of selected indicators from the 2020 country operations plan for each strategic area of activity with cumulative key figures and monthly highlights.

## ACHIEVEMENTS (MAY 2020)

 Due to COVID-19 pandemic the usual learning activities have been suspended. Nonetheless, UNHCR worked with the education sector partners to disseminate the caregiver-led education guidelines in the camps to support caregivers and parents in facilitating some learning in their homes while the facilities remain closed.

### **ACHIEVEMENTS (MAY 2020)**

- 19,229 primary health care consultations were provided in health facilities.
- 264 mental health consultation were conducted and 13,298 refugees participated in group psycho-social activities
- 1,863 new admissions to community management of acute malnutrition programmes reported.
