

Sector:

OBJECTIVE

This template helps monitor the implementation of gender on the Syria crisis response in Jordan. It is important to inform that gender analysis is available at the sector dashboards of the response [<http://scs.raisunhcr.org/>] and that it should be used as part of the resources for establishing this document for the sector.

Frequency: Monthly during COVID-19 pandemics

1. Situation of the Sector on Gender

- The sector dashboard reports about the implementation of the response with gender disaggregation: Women, Girls, Boys and Men. This section informs about the level of implementation of each sector towards these four categories where applicable. In addition to the sector dashboards it is important to include the camps and urban reporting on gender.
- Insert in the left column any figure related to achievement towards any gender category reported (WGBM): Totals of the month from the online dashboard.
- Insert in the right column any Figures related to specific activities highlighting achievement towards any gender category. Source from: online sector dashboard; camp report; urban-based report.

3,245 Women assisted

2,500 Girls assisted

2,100 Boys assisted

420 Men assisted

2,350 Girls provided with Hygiene kits (WASH)

250 Tiger Girls participated in gender awareness in Zaatari Camp (Protection)

1,350 Boys enrolled in formal education (Education)

2. Gender Analysis [according to GAM & Workplan]

- Analyze the situation of the sector according to the objectives of the three main gender benchmarks:
 - the Gender with Age Marker (GAM);
 - the SGFPN Workplan;
 - the Sector Strategy.
- This section is strategy related: what is the sector focus and how gender is formulated in that strategy, then analyze whether the achievements of the sector is in line with the strategy [liaise with the sector chair to confirm what are the more important activities related to each category (WGBM) and check the figures related to those activities].
- Check the progress of the sector against the GAM
- Check the progress of the sector against the SGFPN Workplan
- The left column is for the sector strategic response towards gender. The right column is for the GAM and Workplan.

Cash for rent is not accessible to women in Location X

Number of Girls enrolled in formal Education is severely lower than for Boys in Location X

Health interventions responsive and fair – GEMs Health Locate the types of health services based on the needs expressed by girls, boys, men and women in different age groups

3. Recommendations [according to GAM & Workplan]

- Provide recommendations towards closing the gaps to any objectives of the GAM and the SGFPN Workplan.
- Identify key principles that need to be re-emphasized to sector for reflecting them in the reporting (according to GAM and SGFPN Workplan).
- Identify key activities that will help close the gender gap among the different categories (WGBM).
- Give recommendation on which areas the sector need more focus in order to fulfill the gender requirements for each relevant category (WGBM).
- Left column for sector and right column for GAM and SGFPN Workplan.

Sector to increase budget on location X for engaging with parents to promote Girls education

*Questions to inspire action - GEMs for Protection/Health
Recommend reinforcing referral pathway
GAM sessions is organized for field staff in location X according to the SGFPN Worplan*

4. Any other relevant topic

- Highlighted any other relevant topic / subject of concern.
