**Agencies present:** AWO, DRC, IFH, IFH/KHF, ILO, IMC, INTERSOS, IOM, IRC, JRF, JWU, Legal Action Worldwide, Oxfam, Plan International, Save the children Jordan, UN Women, UNFPA, UNHCR, UNICEF and UNRWA

Agenda:

- GBV IM updates.
- Reviewing GBV SWG workplan (mid-year review).
- GBV Gap Analysis.
- World café and wrap up.

GBV IM updates	Discussion \ Question	Action points
IM updates	<ul style="list-style-type: none"><li>- In Addition to the two pillars under Activity Info IM tool, a new pillar has been added for COVID-19 response implemented activities.</li><li>- Reported activities from all agencies are implemented in 12 different location covering all Jordan governorates as per 2021 AI submissions.</li><li>- There was a shown increase in submissions during the first half of this year compared to last year from most of the agencies.</li><li>- 2021 targets vs achieved have been presented per indicator during the presentation disaggregate by sex and age group.</li><li>- 81% of clients demonstrating satisfaction towards GBV case management services they received during the half year.</li><li>- “# WGMB with and without disability reached by SGBV prevention and empowerment activities” indicator have been overachieved by +2% during the first half of 2021.</li></ul>	<ul style="list-style-type: none"><li>- <b>Q: there are indicators specific for COVID-19 that are similar to the GBV indicators, what data should be included under those indicators?</b> A: Programs implemented under COVID-19 fund should be the ones reported under COVID-19 indicators.</li></ul>

<p><b>Reviewing GBV SWG work plan</b></p>	<ul style="list-style-type: none"> <li>- Activities highlighted in; green are achieved, yellow are pending/in the process and red are not accomplished yet. A column for the midyear is added to update the workplan and add comments.</li> <li>- <b>TORs and workplan:</b> Each GBV WG gave their status regarding updating the TORs and workplan.</li> <li>- <b>Support new SoPs launch and roll out:</b> NCFA confirmed that English version will be finalized soon. There is a need to upload the Inter-Agency referral form to the portal. Training on the SOPs: plan is made for 2022.</li> <li>- <b>GBV Safe referral TOT:</b> Participants (including GBV coordinators in Mafrag, Irbid and Zatari camp) mentioned a need for another ToT. Last year, the focus was on building the capacity of UN agencies. Certified trainers were asked to deliver two trainings; internal and at the Inter-Agency level, if members agree that it's needed then a new ToT can be conducted in addition to updating the workplan. But first, coordinators will follow up with the trained staff member and provide field coordinators with the list of trainers   their respective locations.</li> <li>- IOM: highlighted the need to understand the challenges being faced by people who got TOT before planning for another ToT. UNICEF: It will be a good opportunity to focus on local NGOs/CBOs and Makani centers as last year the focus was on UN agencies</li> </ul>	<p><b>The reviewed version of the GBV WG workplan will be uploaded to the portal</b></p> <ul style="list-style-type: none"> <li>- <b>Safe Referral: Feedback to be taken from previous attendees who got the Safe referral TOT, afterwards a new TOT will be added to the workplan if still needed.</b></li> <li>- <b>Coordinators to look at making a shorter version of the GBV safe referral Pre/Post test.</b></li> </ul>
---	---	---

- Two participants stated that the Safe referral ToT Pre/Post test is too long and needs to be shortened (based on the trainees' feedback)
- **Amaali application:** Some complaints have received on Amaali App. Some data are not updated in addition to phone numbers and provided services. Assess the importance of updating the hotlines and make sure that they are functioning, and the services are updated as well.

JWU Amaali application, the GBV referral pathway map GBV services. The known GBV services are provided by UN Agencies.

- In Response to a question on Amaali App raised by JWU, it was highlighted that Amaali application provides information about GBV service provision nationwide. The GBV SWG developed this application to have updated information about GBV services and focal points (specially that there is high turnover of GBV focal points noticed previously) and consistent changes of provided services.
- **Participation of governmental counterparts:** although a calendar of all GBV SWG meeting was shared with FPD HQ but there are some challenges have been raised by all WGs at the different field locations on the participation from FPD and MoSD side.
- Zadari: no participation from authorities even though they tried several methods (convenient time of meetings, meeting language in

- **Each coordinator to ask the WG in their respective locations to review and update their information on Amaali app during a specific timeline. Then, coordinators to do quality check and make sure information is up to date.**

Arabic...etc) to try to engage them. It's still a challenge in Zadari.

- Mafraq: Same Challenge as Zadari  
Irbid: suggestion to assign fixed focal point from the FPD in field different locations that can attend.
- **Advocate with donors and key stakeholders to include GBV as a key priority for response:**  
AWO: regarding the approval to the different projects. They mentioned that its already covered from different NGOs whether its Case management services and PSS services, and they mentioned that there is no tangible impact shown in the field. two rejections have been received. therefore, more advocacy work needed to continue the service provision. Another member stated that they said that even in Ma'an they got the same comment.

**Risk assessment:** IOM leads on the EJC and East Amman risk assessment. Irbid and Ramtha risk assessment has been finalized and presented to the WG and uploaded on the Portal.

- IOM: Data collection were completed and for east Amman the workshop was done yesterday on data collection. an email will be sent soon, and the final report will be ready by end of September. Main recommendation: To reflect on recommendations from the conducted Risk Assessments in the Gap Analysis that will be held in today's workshop.
- **Supporting Monitoring framework for the response as per 3RP:** only Mid-year IM dashboard was shared in July meeting upon

- **Irbid and Ramtha risk assessment to be uploaded to UNHCR portal.**

-

	<p>finalization data entry, but we will continue presenting the dashboard on monthly basis.</p> <ul style="list-style-type: none"> <li>- <b>Development of guidance notes on technical issues:</b> COVID-19 vaccination and implications for gender-based violence (GBV) prevention and response guidance note was finalized and presented in all GBV SWGs. Pending: CVA guidance note will be produced in the second half of the year.</li> <li>- Recommendation to present this document to the health WG.</li> <li>- <b>Coordinate capacity building initiatives:</b> Activity info and FTS trainings are delivered. Pending: Disability inclusion and LGBTIQ trainings</li> <li>- <b>Strengthen sector gender analysis:</b> Gender focal points were elected (JRF and GfP). They attend the GSFPN regularly.</li> <li>- <b>Q: Have any gender analysis been conducted, what is the frequency? is it for the camps only?</b></li> </ul> <p><b>A:</b> No specific gender analysis has been conducted yet, but we make sure gender elements are covered in every document produced by the WG.</p> <p><b>UN Women:</b> Multi sectoral gender analysis will be produced in next September - Desk review.</p>	
<p><b>GBV Gap Analysis</b></p>	<p>Members have been divided to five different groups to discuss the GBV gap analysis in each location.</p>	

	<ol style="list-style-type: none"><li>1. Amman group</li><li>2. Irbid group</li><li>3. Zaatari camp Group</li><li>4. Mafraq Group</li><li>5. Azraq Group (Ahmad Wazani)</li></ol>	
<b>World café and wrap up</b>	Groups to go around the different groups and contribute to the gaps and recommendations.
