- The main challenge is that some GBV partners who appealed during the JRP /3RP 2020-2022 did not upload their data under AI system.
- Updates from field offices:
- **Irbid office:** Irbid CP GBV conducted ad hoc meeting and updated GBV gap analysis; the major findings were:
- Need to conduct more trainings on GBV for staff members and police.
- Lack of safe accommodation for GBV survivors other than the government shelters.
- enhance livelihood and job opportunities. Need more sustainable projects for women and girls.
- Lack of awareness activities which are targeting boys, and men.
- health sector / CMR: not all doctors, nurses, and the medical team are trained. PeP kits are not available in all clinics. Currently the CMR services are available through NHF (coordinate with Amman team who approach Irbid and follow up on the case).
- Zatari camp: training for Zatari WG members on gender and age marker. Meetings on how to apply gender and age marker and how to mainstream it in protection programing. Brief on gender mainstreaming in GBV projects to identify if these projects apply age and gender marker. Will start providing trainings for service providers in Zatari camp on GBV safe referrals, CP safe referrals, PSEA and CoC.
- Azraq camp: Joint Protection, CP and GBV meeting took place. During the meeting the following topics were discussed: GBV Safe Referral Training, GBV Cash Assistance SoP's, World Refugee Day, World Day Against Child Labour, Sexual Harassment against children on their way to the school, EJC and agencies updates.
- The EJC Monthly Camp Coordination Meeting took place at SRAD site to discuss the World Refugee Day, violence in school, child Labour, challenges, and agencies updates.
- UNHCR Protection Unit has conducted 03 GBV Safe Referral Trainings. UNHCR & UNICEF had a meeting with the SRAD in Azraq camp during which they discussed sexual harassment against students on their way to school and how to respond. This includes awareness sessions, community volunteers' network, involving the education sector, and the SRAD will increase the police patrols.
- The Protection Unit has conducted an introductory session on the new GBV Cash Assistance Sop's to protection partners. Another session will be conducted tomorrow at EJC.
- The Protection unit staff attended several CP and GBV Safe Referral sessions conducted by JRF.
- Azraq Sharia court reconciling unit conducted 5 awareness sessions on the risks of child marriage and how to prepare adults who intend to get married.
- ARDD will conduct awareness sessions in EJC about ARDD legal services in the camp.

| GBV M&E Toolkit - refresher and examples of tools' implementation | <ul> <li>Training on the M&amp;E toolkit took place late March 2022. Different organizations participated and there was a request to share this further with the WG.</li> <li>Feedback on the toolkit: this toolkit is very useful, and it can be tailored to all activities.</li> <li>During the trainings it was presented how to use the toolkit. Information was disseminated with members who did not attend the training.</li> <li>How to best utilize the GBV toolkit in programming.</li> <li>GBV programming is different as it has sensitivities and consequences on cases. Reasons were summarized and explained. UNFPA in collaboration with UNHCR and GBV SWG identified the need of having a GBV M&amp;E toolkit in Jordan.</li> <li>Toolkit encourages using best practices that can be customized based on users implementing it.</li> <li>Each tool has a description on safety and ethical consideration scale.</li> <li>Some tools are with sensitive nature and need GBV experts.</li> <li>Data analyses should be done by GBV specialized workers.</li> <li>For medium sensitive tools, the data collector should be a woman who is trained on GBV. FGDs is an example of medium sensitive tools.</li> <li>Low sensitive tools present minor sensitivities and can be used by any M&amp;E staff who is familiar with basic safety and ethical principles.</li> <li>The structure has 4 different parts, part 1 includes brief introduction, sensitivity scale and other important considerations. Part 2 includes M&amp;E tools grouped by domain with detailed guidance. Part 3 includes guidance for GBV organizations and donors, and part 4 includes list of suggestive indicators.</li> <li>For the tool kit utilization, members can go to the tool (using the search) and can find the needed information.</li> </ul> | Registration for the M&E training: https://forms.gle/hxfvtomU QrHC9zxWA |

|     | - Toolkit included the GBV cash assistance. The purpose of the tool is to collect information about how the cash and in-kind based assistance was used by the survivors to achieve goals in the action plan and mitigate current and further risks. |  |
