BACKGROUND

Since the onset of the Russian invasion, nearly one-third of Ukrainians have been forced from their homes. This is one of the largest human displacement crises in the world today. Within Ukraine, over 6.6 million people remain displaced by the war. As of today, UNHCR estimates there are over 6.3 million refugees present across Europe. Over 3.8 million refugees from Ukraine have registered for temporary protection or similar national protection schemes. More than 10.6 million movements out of Ukraine have been recorded since 24 February, with over 4.5 million movements back into the country.

Inside Ukraine, many people who are trapped are unable to meet their basic needs including for food, water and medicines. The delivery of life-saving aid remains challenging, with a lack of safe humanitarian access in areas where intense fighting is ongoing. UNHCR and partners continue striving to reach hard-hit areas with life-saving assistance as part of inter-agency humanitarian convoys.

UKRAINE SITUATION UPDATE

- As of 8 August, the Office of the UN High Commissioner for Human Rights (OHCHR) recorded 12,867 civilian casualties in the country: 5,401 killed – including 355 children – and 7,466 injured. OHCHR notes that the actual figures are likely considerably higher. OHCHR reports that most of the civilian casualties recorded were caused by the use of explosive weapons with a wide impact area, including shelling from heavy artillery and multiple launch rocket systems, and missile and air strikes.
- Five months since the escalation of conflict in the country, **deadly shelling and missile attacks continue, causing destruction, civilian injuries and deaths.** Hostilities have destroyed more critical infrastructure, leaving millions overall without access to basic lifelines such as health services, water, electricity and gas supplies.

More than five months since the beginning of the war in Ukraine, humanitarian needs continue to rise rapidly. A revised [Flash Appeal](#) reflecting the humanitarian needs until the end of 2022 was published on 8 August, taking into account the deteriorating situation

and consequent need for continued life-saving assistance ahead of winter. The financial request has increased from US\$2.25 billion to US\$4.3 billion and the time frame was extended until the end of 2022, with the goal of reaching 11.5 million people in need. As a result, UNHCR has revised its own financial requirements. Its budget has increased by US\$170 million in Ukraine to a total of US\$707M for the Flash Appeal. In addition to the US\$710M required for the RRP, UNHCR's total financial requirements for the entire Ukraine situation now amount to US\$ 1.417 billion.

People who remain in Siversk, mainly the elderly and those with limited mobility are spending their days in shelters, hiding from the constant bombing. The critical items will help **more than 6,000 people to prepare for the upcoming cold season**.
- Construction work started in Vynogradiv, Zakarpatska oblast to create over **60 new spaces for internally displaced persons (IDPs) with disabilities in a collective centre**. Multipurpose Cash Assistance

- Since the beginning of cash enrolment in Ukraine on 17 March, **cash assistance has been disbursed to 436,095 people**.
- Cash assistance is one of the most efficient and effective ways to support people who have been forced to flee from their homes. It serves as a transitional safety net before people find a job or are included in national social protection schemes.

- So far, UNHCR has supported **291 reception and collective centres** run by the Government to increase their capacity to host IDPs. A total of **89,304 additional sleeping spaces** at these centres have so far been created.

COORDINATION

Ukraine

UNHCR leads the Protection and Shelter Clusters as well as the Camp Coordination Camp Management (CCCM) Cluster which was activated as of 1 March in Ukraine. In addition, as co-lead of the Logistics Working Group in Ukraine, UNHCR is facilitating the movement of humanitarian convoys in coordination with OCHA. The UNHCR-led Protection Cluster has established a national coordination office in Lviv and plans to establish sub-national coordinators in Dnipro, Lviv, Uzhhorod and Vinnytsia. Both the Child Protection and GBV Sub-Clusters are similarly expanding their presence.

Regional Refugee Response

UNHCR has facilitated the establishment of coordination structures in line with the Refugee Coordination Model, in order to support the overall coordination of relevant governments. A Regional Refugee Response Plan (RRP) was developed in early March. A revised version of the RRP extending through December 2022 has since been published, bringing together the joint efforts of 142 partners. Inter-agency Refugee Coordination Forums (RCFs), led by UNHCR, and specific sectoral groups, have been established at country level in Belarus, Bulgaria, the Czech Republic, Hungary, the Republic of Moldova, Poland, Romania and Slovakia to support the efforts of the concerned governments. The structures are intended to be agile and will be adjusted as the situation evolves.

UNHCR leads the Refugee Coordination Forum (RCF) at country-level in **Hungary** to ensure a harmonized response within existing government structures and among inter-agency partners, NGOs, volunteers and other stakeholders, with associated working groups (Protection, including Child Protection and Education, and Basic Needs – including Shelter, Food, and Non-Food Items) and two cross-cutting task forces (the Prevention of Sexual Exploitation and Abuse and Mental Health and Psychosocial Support) to effectively coordinate inter-agency partners' response.

In **Moldova**, an Inter-Agency Coordination Group has been established with more than 70 participating members. UNHCR leads the RCF and co-chairs the Cash, Education, Information Management (IM), Protection, Accommodation & Transportation, and Logistics & Supply Working Groups; GBV and Child Protection Sub-

Blue Dots

UNHCR and UNICEF are jointly establishing 'Blue Dots' in multiple countries receiving refugees fleeing Ukraine. To date, a total of 35 are already operational including in:

| | | | | | |
|----------|---|---------|---|----------|---|
| Bulgaria | 6 | Moldova | 7 | Slovakia | 3 |
| Hungary | 2 | Poland | 8 | | |

UNHCR has reinforced staffing for the Blue Dot roll-out with one coordinator to ensure consistency in approach, provide support, and enhance assessment and quality assurance.

UNHCR is rolling out an accessibility checklist to make sure Blue Dot locations are accessible to everyone, including persons with disabilities. UNHCR is developing a joint Monitoring Framework and Feedback and Complaints Mechanism for all Blue Dots, together with UNICEF and other partners.

Working Groups; the Gender Task Force; and the PSEA Network. The Government of Moldova has established a Single Emergency Management Centre under the Prime Minister's Office, where UNHCR represents the Inter-Agency Coordination Group, ensuring coordination between the two.

In **Poland**, UNHCR leads the overarching refugee coordination structure in Poland, in support of the Government-led response. The thematic sector working groups include Protection (with sub-sector working groups on Child Protection, Gender-based Violence, Counter-trafficking, Third-Country Nationals, and Mental Health and Psychosocial Support); Health; Education; Shelter; Basic Needs, including Food Security, Water and Sanitation and Core Relief Items; and Logistics. In addition, there are transversal working groups on Cash, Information Management, Accountability to Affected Populations and Prevention of Sexual Exploitation and Abuse.

In **Romania**, UNHCR has set up the Refugee Coordination Model structure made up of eight sector Working Groups, one Anti-Trafficking Task Force and a PSEA network, which are co-led by UNHCR and other UN agencies, government counterparts and NGOs. UNHCR leads the Protection Working Group and PSEA network, and co-leads the Child Protection Sub-Working Group, Information Management Working Group, Cash Working Group and Basic Needs Working Group. Leads and co-leads attend

the governmental sectoral Working Group meetings. As such, governmental and humanitarian coordination structures are operating to mutually reinforce each other, under governmental leadership. A total of 23 international and national partners are part of the Refugee Response Plan for Romania.

In **Slovakia**, a response-wide Refugee Consultation Forum (RCF) is in place that meets alternatively in Bratislava and in eastern Slovakia and is co-chaired by the Government and UNHCR. Within the RCF, seven working groups and sub-working groups are operating (Anti-Trafficking, Cash, Child Protection, Health, Information Management, MHPSS, Protection and Inclusion) as well as a UNHCR-led PSEA Task Force while Accountability to Affected Persons (AAP) is mainstreamed across all groups and made an RCF standing agenda item. UNHCR also convenes a regular humanitarian and development Donor Group. In early June, the Prime Minister announced the reactivation of a Steering Committee dedicated to integration. This body, created in 2014, to ‘find solutions for foreigners and looking at ways to integrate them’, is now being reactivated and tasked with the inclusion and integration of Ukrainian refugees. RCF partners are furthermore supporting the ongoing engagement of the Slovak Republic with the Global Compact on Refugees (GCR) as a means of systematizing and sharing good practices with other countries facing similar challenges, and in view of cultivating pledges related to its national response for the Global Refugee Forum in 2023.
