Child Protection Sub-Working Group

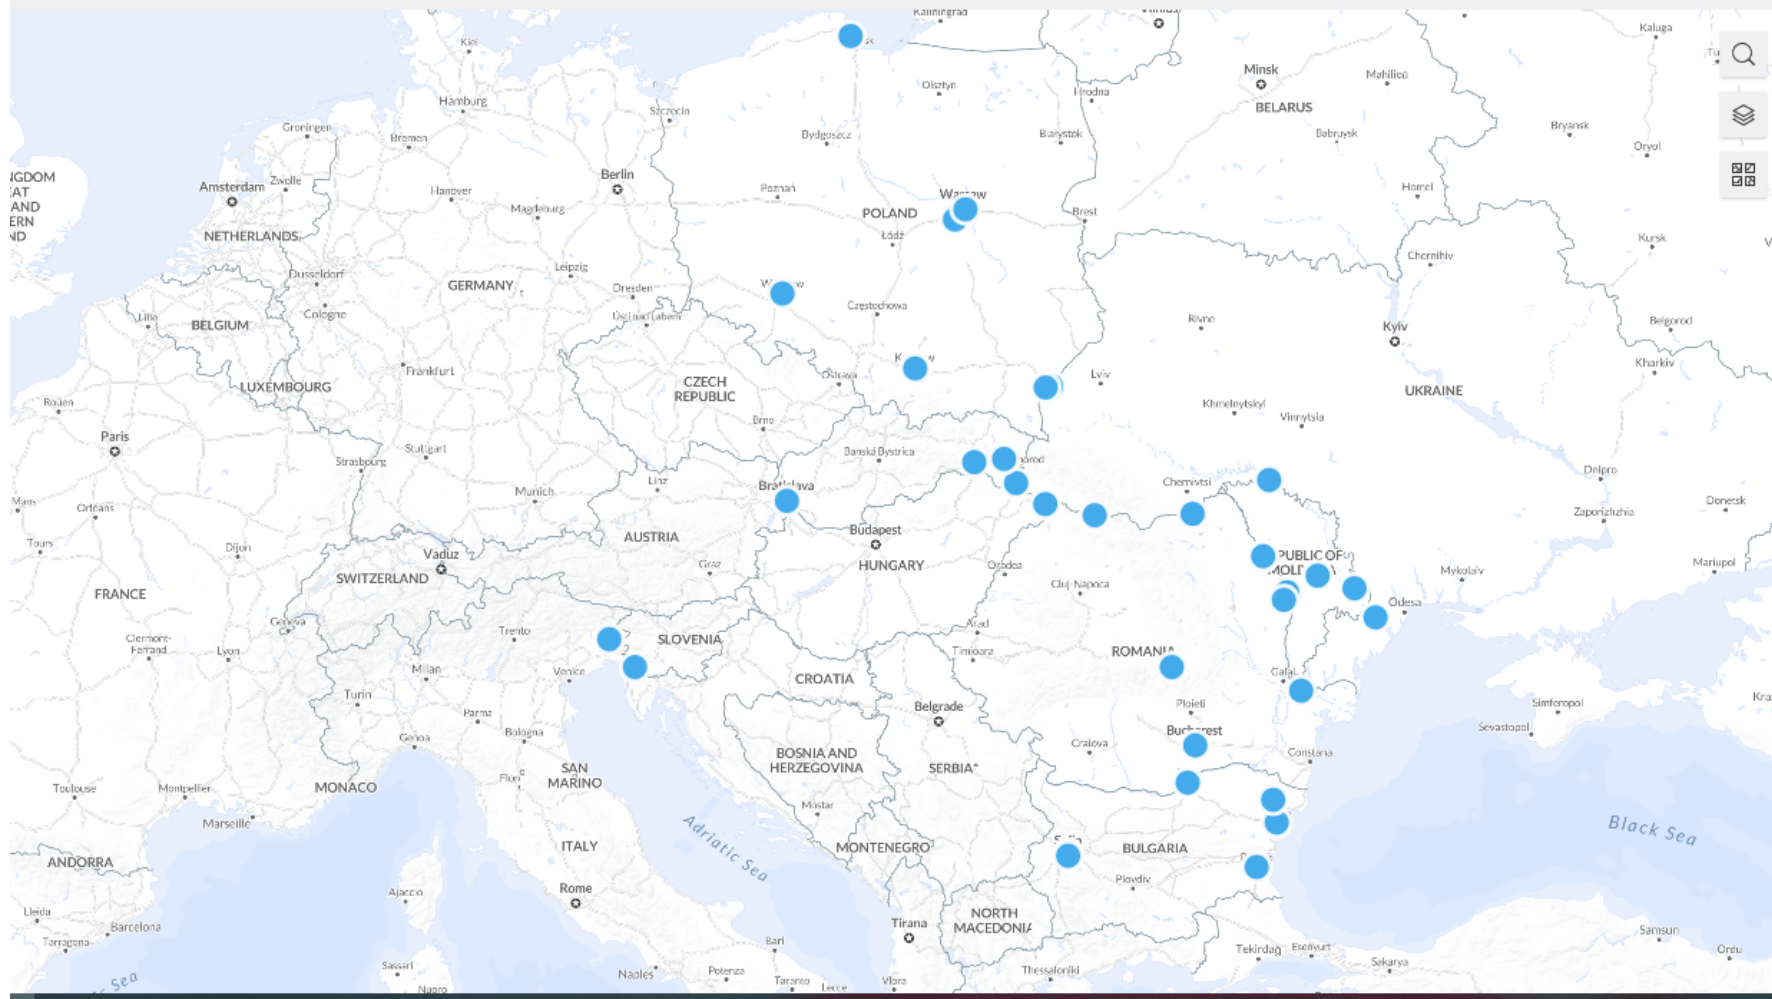

September 7, 2022

WHAT ARE THE BLUE DOTS HUBS?

- Children and Family Protection Support Hubs that provide a minimum set of key child protection and social service delivery and referrals for children and families;
- Locations where professional, trained social workers, psychologists, counsellors, and legal aid providers are available to support identification of urgent social service and protection needs and ensure that those needs are addressed. Such services can also provide support to others with specific needs, such as victims of gender-based violence and persons with disabilities.
- BDts are mainly established along anticipated routes of major refugee flows and may include locations such as border crossing points, transport hubs, or strategic urban locations.
