Rein Paulsen, Director, Office of Emergencies and Resilience. OER-Director@fao.org

Objective: To assess production practices and capacities in recommended agriculture value chains in the context of the Syrian refugee crisis response and COVID-19.

Key partners: Ministry of Agriculture and Forestry (MoAF) and Ministry of Labour and Social Security (MoLSS).

Beneficiaries reached: MoAF, MoLSS, *Deutsche Gesellschaft für Internationale Zusammenarbeit* and key stakeholders.

- Activities implemented:**
- Carried out a desk review and secondary data analyses to form a strong technical basis to produce a profiling study and project interventions roadmap.
 - Conducted 14 focus group discussions to gather qualitative data on agricultural production, organizations, employment and workers; agribusiness and trade; and food processing and packaging.
 - Conducted 23 key informant interviews in Adana and 27 in Gaziantep with representatives from the private sector, private institutions, agricultural organizations, public institutions, workers and Syrian communities.
 - Designed and carried out a survey questionnaire on the agricultural practices in Adana and Gaziantep.
 - Identified and assessed potential intervention areas and implementing partners to support the response to improve food security and livelihoods of Syrian refugees and host community members.

- Results:**
- Produced a profiling report on the agricultural practices in Adana and Gaziantep Provinces in the context of Syrian refugee crisis response.
 - Produced an intervention roadmap that outlines intervention areas, strategies and activities to support agricultural production, sustainability, agribusiness, agricultural organization and employment generation.
 - Shared the profiling report and intervention roadmap with all relevant stakeholders and potential partners to promote awareness and support multi-stakeholder public-private dialogue.
