

MAP OF BORDER CROSSINGS AND PROVISIONAL SITES

Borders between Iran and Afghanistan are open for Afghan passport-holders with valid visas for Iran, hampering access to territory of undocumented Afghans in need of international protection through official border points. UNHCR is aware of Afghans also accessing territory through unofficial border crossings. UNHCR calls on countries to keep their borders open for Afghans fleeing Afghanistan. UNHCR and other actors, in coordination with BAFIA are involved in developing potential sites in border areas that will host new arrivals.
